My Master Thesis Submission

I hereby confirm that the Master Thesis "Multimodal Feature Fusion via Graph Neural Networks for Visual Dialog" I'm digitally submitting on December 30, 2022, will be identical to the printed copy I am allowed to submit by Jan. 10, 2023.

I will not modify the printed copy of my Master Thesis in any part, and I'm aware of the consequences if I act otherwise.

The submission delay is only due to the closing of the University of Stuttgart during the Season Holidays.

Nishan Chatterjee
